

## Colour chart for Pleuser®-Etiketten

### Colour samples

We offer coloured labels in all fundamental colours varying from lighter to darker nuances. For an additional print (text) we highly recommend unicoloured labels in a light tone.

Alternatively, darker shades may be used for horizontal or vertical bars in various widths.

For unicoloured designs please choose only colours marked "VB". This limitation does not apply for colour bars.

The colour illustrations down below (without engagement) may only serve as reference for the available fundamental colours and nuances. Please request samples in your colour of choice.

			
914 beige, VB	976 green, VB	966 brown, VB	948 blue
